Visitation Update – July 23, 2020

Presently we are contacting our 200 Residents or their designate to determine the two Designated Family Caregivers who will be able to visit their loved one in their room.

We are working to establish safe visitation processes as we await the Government of Manitoba's Final Restoring Services Phase 4 Plan. We look forward to welcoming Designated Family Caregivers to the Centre starting:

July 27th, 2020 between the hours of 10 am and 7:30 pm

(No appointment is necessary)

Your patience and understanding is appreciated as we navigate and determine how to safely operationalize the draft version of the Shared Health Long Term Care Resident Visitation Principles that was released to us late yesterday afternoon.

More information will be distributed once our detailed plan is finalized.
