#### Medical Director

Dr. S. J. Koven, M.D. Ph.D.

July 29, 2020

Dear Family Members,

We are pleased to say that the first couple of days of in-room visits have gone well. If you have a hired companion, it is your responsibility to communicate this information to them directly.

There are a few reminders that we would like to share with you:

- You must sign in and sign out at the security desk (this is for contact screening); we recommend you bring your own pen.
- A mask **MUST** be worn at all times while visiting indoors; **you must bring your own mask.**
- Designated family caregivers, that have been selected by the Resident or their decision maker, must stay in the Resident's room. **Please do not stop at the nursing station, in the Dining Room or visit other Resident's in the hallway.**
- Only designated family caregivers, that have been selected by the Resident or their decision maker, can be within 2 meters or 6 feet of Resident while outdoors and **a mask must be worn.**
- Up to 4 visitors are permitted for distanced outdoor visits. Tables have been set up that promote the recommended 2 meters or 6 feet of distance. It is strongly recommended that masks also be worn by those visiting at a physical distance outdoors.
- **In-person meetings with staff are not permitted at this time.** Continue to connect with staff via telephone or email.
- Any items brought in to the facility **must be cleaned at the sanitization station. Sanitization station is located outside in front or between front doors.**

**We ask that you take some time to review the links below:**
